

Wompy Fact sheet

A curious AI plush available for preorder. Ages 5+. Wompy’s intended play experience invites children to explain, invent and tell stories, with the child leading the ideas.

CURRENT PHYSICAL SAMPLE

FULL PRODUCT PREORDER

US\$129

INTENDED REGULAR-PRICE REFERENCE

US\$250

PREORDER & SHIPPING

US\$129 is paid in full through Stripe, not a deposit. Shipping is extra: the buyer receives a quote before dispatch, approves it and pays separately. No automatic shipping charge.

EXPECTED DISPATCH

Before Christmas 2026. This is an estimate, not a guaranteed arrival by Christmas. Development, production and transit schedules may change. Destinations and restrictions are confirmed when quoting shipping.

PRICE & CANCELLATION

The US\$250 reference is the intended regular price, not a previous selling-price claim. The published policy allows cancellation before dispatch for a full refund of the product payment, including if the buyer declines the shipping quote.

COMPLETED EXPERIENCE

The conversation experience and companion app are complete. Ages 5+. Privacy controls are finalized. Contact support for care instructions, app setup and detailed toy privacy documentation.

PRODUCTION & SERVICE

The images show a physical sample. Final production appearance, specifications, packaging and safety-certification information remain subject to production documentation. No subscription is currently planned at launch; no lifetime-service guarantee is made.

ASPIRATION & EVIDENCE

The child-led play idea is a product aspiration. No proven learning, developmental or therapeutic outcomes are claimed. Website play is prewritten, not live AI or a finished-hardware demonstration.

Imagery: sample photos show the current physical sample; packaging, family scenes and cloud worlds are concepts. Final production details may change. Confirm publication permissions before reproducing images; no blanket image licence is granted.
